

MD ABU ZAFOR

Flutter Developer | Cross-Platform Mobile Apps | iOS & Android

+8801725722522 | abuzafor.dev@gmail.com | [Portfolio](#) | [GitHub](#) | [LinkedIn](#) | Dhaka, Bangladesh

PROFESSIONAL SUMMARY

Flutter developer with hands-on experience building and shipping cross-platform mobile applications live on the Apple App Store and Google Play Store. Proficient in Dart/Flutter, REST API integration, Firebase, and state management. Experienced in the full app development lifecycle — from UI design and feature implementation to testing, client communication, and store deployment. Currently working at ScaleUp Ad Agency serving international clients, with 3 live production apps and 1 open-source project on GitHub.

TECHNICAL SKILLS

Languages: Dart, Python, SQL

Framework: Flutter (cross-platform iOS & Android)

State Management: Provider, GetX, BLoC

Backend & APIs: REST API integration, Firebase (Auth, Firestore, Cloud Messaging), third-party SDKs

Tools & DevOps: Git, GitHub, Android Studio, VS Code, Xcode, Postman

Store Deployment: Apple App Store, Google Play Store — app submission, review, and release management

UI/UX: Material Design, Cupertino widgets, responsive layout, custom animations

Other: MS Office, technical documentation, client communication in English

LIVE PROJECTS

Tully Planner | iOS — Live on App Store | [App Store](#)

Athlete & coach performance tracking app for high schools and sports organizations.

- Built a cross-platform performance tracking app enabling coaches to create, assign, and monitor customized training programs for athletes.
- Implemented real-time data collection and performance metric dashboards to track athlete progress and standings.
- Integrated QR code-based data submission flow allowing athletes to log training results quickly from any device.
- Delivered smooth UI with custom charts and data visualizations to present performance trends for coaches and athletes.
- Managed full deployment to Apple App Store, including build configuration, metadata, and review submission.

Central Padel League | iOS & Android — Live on App Store & Play Store | [App Store](#) | [Play Store](#)

Sports league management app for padel clubs — live on both iOS and Android.

- Developed a feature-rich cross-platform sports app covering real-time match schedules, live scores, league standings, and player statistics.
- Built push notification system to keep users updated on upcoming fixtures, match results, and event highlights.
- Implemented detailed player and team profile screens with stats, rankings, match history, and performance metrics.
- Integrated admin-facing content management features enabling organizers to update fixtures, results, and articles.
- Successfully shipped to both Apple App Store and Google Play Store — managing dual-platform build and release pipeline.

Beardfriends | iOS — Live on App Store (UK) | [App Store](#)

Social community app for connecting users with shared interests — live on UK App Store.

- Built a social networking app with user profiles, community feed, and interest-based discovery features.
- Implemented Firebase Authentication and Firestore for real-time data sync, user management, and secure access.
- Designed and developed an intuitive, clean UI with smooth navigation and responsive layouts across device sizes.
- Integrated real-time chat and notification features to drive user engagement within the community.

- Deployed successfully to Apple App Store UK — handling compliance, privacy policy requirements, and review process.

EarthQForecast | Flutter — Open Source | [View on GitHub](#)

Real-time earthquake monitoring & awareness app — open source on GitHub.

- Built a real-time earthquake tracking app consuming live seismic data APIs to display earthquake events on an interactive map.
- Implemented location-based filtering, magnitude categorization, and alert levels to surface relevant data to users quickly.
- Designed an informative dashboard with recent event lists, depth indicators, and regional impact details.
- Open-sourced on GitHub as a demonstration of API integration, map rendering, and real-time data handling in Flutter.

EXPERIENCE

Junior Flutter Developer *September 2025 – Present*

ScaleUp Ad Agency, Betopia Group | International Clients

- Develop and maintain cross-platform Flutter applications for international clients, taking features from requirement to release.
- Communicate directly with international clients in English — clarifying requirements, presenting progress, and managing feedback cycles.
- Responsible for REST API integration, Firebase setup, state management implementation, and UI development on live client projects.
- Handle app store submission and release management for both Apple App Store and Google Play Store.
- Prepare technical documentation and status reports for cross-functional coordination.

Student on Duty – App Development Instructor *July 2025 – December 2025*

Independent University, Bangladesh (IUB)

- Designed and delivered a structured Flutter app development curriculum to student cohorts.
- Created hands-on coding exercises, project briefs, and assessment frameworks from scratch.
- Evaluated student projects and provided technical feedback on code quality, UI, and app architecture.

Teaching Assistant (TA) – Physics Lab *2023 – 2025*

Independent University, Bangladesh (IUB)

- Supervised lab sessions, prepared SOPs, and maintained compliance documentation — built strong attention to detail and structured workflow habits.
- Delivered technical briefings to student groups and maintained performance records across multiple batches.

EDUCATION

Bachelor of Science in Computer Science and Engineering (B.Sc.) *2022 – 2025*

Independent University, Bangladesh (IUB) | CGPA: 3.62 / 4.00

- Relevant coursework: Algorithms, Data Structures, Software Engineering, Database Management, Systems Design
- Minor: Management Information System (MIS)
- All academic instruction conducted in English throughout the 4-year programme
- Dean's Merit List – 3 consecutive times (2024)

CERTIFICATIONS

- Complete Flutter App Development Career Path (2025)
- CCNA: Introduction to Networks – Cisco / IUB (2023)
- Master Git & GitHub: Beginner to Expert – Udemy (2023)
- Python for Data Science, AI & Development – Coursera (2022)
- AI & Machine Learning – Ostad (2026, ongoing)
- Aspire Leaders Program – Harvard-affiliated (Aspire Institute, 2026, ongoing)

HONORS & AWARDS

- Dean's Merit List – 3 consecutive times, IUB (2024)
- Honorable Mention – Intra-IUB Programming Contest 2024
- Runner-up – Algorithms Project, TechFest Summer 2023, IUB

PERSONAL INFORMATION

Date of Birth: 22 May 2002

Nationality: Bangladeshi

Address: Gp-cha 139/9, Mohakhali Wireless, Mohakhali, Dhaka-1213
